

NUREEN ANIS SOFEA BINTI YUSNI

nreenanis@gmail.com | [LinkedIn](#) | [GitHub](#)

Final-year Software Engineering (Information Systems Development) student, expected to graduate November 2026, with experience developing web and mobile apps during studies (Flutter/Dart, JavaScript, Firebase, MySQL). Currently interning as a System Analyst, working on documentation, wireframes, database design, and supporting developers while collaborating with a team to meet deadlines. Familiar with Figma and Git/GitHub, motivated to learn continuously, solve problems, and contribute effectively to IT projects.

EDUCATION BACKGROUND

Universiti Kebangsaan Malaysia, UKM

Bachelor of Software Engineering (Information System Development) with Honours (3.31)

Oct 2022 – Present

Kolej Matrikulasi Negeri Sembilan

Matriculation Programme in Science (Module 2) (3.71)

Aug 2020 – June 2022

WORK EXPERIENCE

System Analyst (Internship)

HeiTech Padu Berhad, Cyberjaya

- Assisted in preparing and updating system documentation, including SDS and SRS, based on project requirements and workflows.
- Supported requirement discussions and clarification sessions, contributing input when required during meetings.
- Collaborated with team members to track assigned tasks and ensure timely completion of documentation and deliverables.

Sept 2025 - Present

FOH Crew (Front of House) (Part-Time)

The Chicken Rice Shop, Mitsui Outlet Park KLIA Sepang

- Provided customer service, handled orders and payments, and supported smooth team operations.

Aug 2024 - Oct 2024

Retail Assistant (Part-Time)

emart24, Mitsui Outlet Park KLIA Sepang

- Provided customer service, processed transactions, and assisted with inventory and store operations.

Aug 2022 - Oct 2022

EXTRACURRICULAR ACTIVITIES

Program Head

Intelligent Machine Club, FTSM, UKM

Apr 2024 - Nov 2024

- Led the Jejak Kasih Bersama Anak Yatim program, overseeing committee operations and coordinating with university offices for smooth execution.

Secretary

Intelligent Machine Club, FTSM, UKM

Oct 2023 - Oct 2024

- Managed meeting minutes, proposals, and correspondence, ensuring organized records and smooth internal communication.

Head of Multimedia

Intelligent Machine Club, FTSM, UKM

Oct 2022 - Oct 2023

- Built and managed the club's social media, designing promotional materials, editing videos, and publishing content to showcase events and engage members.

PROJECT EXPERIENCE

Final Year Project (Panic Button UKM)

- Developed a mobile app for students to report campus emergencies, using **Flutter (Dart)** for a smooth UI.
- Integrated **Firebase (Firestore)** for real-time alert storage and role-based login for students and security admins.
- Managed coding, debugging, and project workflow using **Visual Studio Code (VS Code)**.

UKM Esport Arena Booking System (UKMeSABS)

- Developed a web-based booking system using **Laravel** and **phpMyAdmin** for reserving esport arena facilities, selecting time slots, and processing payments.
- Focused on user-friendly navigation and tested the system using **Visual Studio Code (VS Code)**.
- Used **Git** for version control, managing project updates collaboratively with teammates.

RentRide

- Developed a mobile app using **Android Studio**, enabling UKM students to browse, book, and pay for vehicles efficiently.
- Integrated **Firebase** for backend services, including real-time data handling, user authentication, and booking management.

SKILLS & LANGUAGES

Technical Skills

- **Programming Languages:** PHP, Dart (Flutter), Python, JavaScript, SQL, HTML, CSS
- **Web & App Development:** Flutter, Firebase, Laravel, Bootstrap, jQuery, Android Studio
- **Databases & Query Tools:** MySQL, phpMyAdmin, Firebase Firestore, Microsoft Access, Oracle, DBeaver
- **Tools & IDEs:** Visual Studio Code, Eclipse IDE, Git/GitHub
- **Design & Modelling:** Figma, Draw.io
- **Data & Analytics:** Power BI, RapidMiner
- **Office & Collaboration:** Microsoft Word, Excel, SharePoint
