

NUREEN ANIS SOFEA BINTI YUSNI

nureenanis@gmail.com | +601111319907 | [LinkedIn](#) | [GitHub](#)

Final-year Software Engineering (Information Systems Development) student at Universiti Kebangsaan Malaysia, expected to graduate in November 2026, with experience in web and mobile application development using Flutter, Dart, JavaScript, Firebase, and MySQL. Currently working as a System Analyst intern, involved in system documentation, wireframing, database design, and supporting development teams. Familiar with Figma and Git/GitHub, with a strong interest in system analysis, software development, and continuous learning.

EDUCATION BACKGROUND

Universiti Kebangsaan Malaysia, UKM

Bachelor of Software Engineering (Information System Development) with Honours (3.33) Oct 2022 – Present

Kolej Matrikulasi Negeri Sembilan

Matriculation Programme in Science (Module 2) (3.71) Aug 2020 – June 2022

WORK EXPERIENCE

System Analyst

HeiTech Padu Berhad, Cyberjaya Feb 2026 - Present

- Support end-to-end system analysis activities for ongoing enhancements within a large-scale government system.
- Translate stakeholder requirements into clear and structured technical documentation to support development and implementation.
- Review and resolve feedback from stakeholders by refining system documentation for accuracy, clarity, and alignment.
- Collaborate with developers, analysts, and stakeholders to ensure consistent understanding of system behavior and requirements.
- Contribute to improving documentation quality, consistency, and overall project delivery efficiency.

System Analyst (Internship)

HeiTech Padu Berhad, Cyberjaya Sept 2025 - Jan 2026

- Contributed to the preparation and refinement of system documentation (SDS, SRS) aligned with project requirements and workflows.
- Supported requirement clarification discussions and actively participated in meetings to improve understanding of system needs.
- Assisted in tracking documentation progress and coordinating tasks with team members to meet project deadlines.
- Developed a stronger understanding of SDLC processes, system workflows, and documentation standards in an enterprise environment.

EXTRACURRICULAR ACTIVITIES

Program Head

Intelligent Machine Club, FTSM, UKM Apr 2024 - Nov 2024

- Led the Jejak Kasih Bersama Anak Yatim program, overseeing committee operations and coordinating with university offices for smooth execution.

Secretary

Intelligent Machine Club, FTSM, UKM Oct 2023 - Oct 2024

- Managed meeting minutes, proposals, and correspondence, ensuring organized records and smooth internal communication.

- Built and managed the club's social media, designing promotional materials, editing videos, and publishing content to showcase events and engage members.

PROJECT EXPERIENCE

Final Year Project (Panic Button UKM)

- Developed a mobile app for students to report campus emergencies, using **Flutter (Dart)** for a smooth UI.
- Integrated **Firebase (Firestore)** for real-time alert storage and role-based login for students and security admins.
- Managed coding, debugging, and project workflow using **Visual Studio Code (VS Code)**.

UKM Esport Arena Booking System (UKMeSABS)

- Developed a web-based booking system using **Laravel** and **phpMyAdmin** for reserving esport arena facilities, selecting time slots, and processing payments.
- Focused on user-friendly navigation and tested the system using **Visual Studio Code (VS Code)**.
- Used **Git** for version control, managing project updates collaboratively with teammates.

RentRide

- Developed a mobile app using **Android Studio**, enabling UKM students to browse, book, and pay for vehicles efficiently.
- Integrated **Firebase** for backend services, including real-time data handling, user authentication, and booking management.

SKILLS & LANGUAGES

Technical Skills

- **Programming Languages:** PHP, Dart (Flutter), Python, JavaScript, SQL, HTML, CSS
- **Web & App Development:** Flutter, Firebase, Laravel, Bootstrap, jQuery, Android Studio
- **Databases & Query Tools:** MySQL, phpMyAdmin, Firebase Firestore, Microsoft Access, Oracle, DBeaver
- **Tools & IDEs:** Visual Studio Code, Eclipse IDE, Git/GitHub
- **Design & Modelling:** Figma, Draw.io
- **Data & Analytics:** Power BI, RapidMiner
- **Office & Collaboration:** Microsoft Word, Excel, SharePoint
